Response to Office Action

Sir:

This is in response to the Office Action mailed 03/28/2008 in regard to the above-identified patent application.

Claims 1-9, 11-14, 15-23, and 25 were rejected under 35 U.S.C. §103(a) as being unpatentable over Hinckley et al. (Research Publication ACM UIST 2000 Symposium on User Interface Software and Technology, "Sensing Techniques for Mobile Interaction", CHI Letters vol. 2, 2, pp. 91-100). Claims 10 and 24 were rejected under 35 U.S.C. §103(a) as being unpatentable over Hinckley in view Kalinski et al. (US 2003/0174307). The examiner is requested to reconsider these rejections.

To establish *prima facie* obviousness of a claimed invention, all the claim limitations must be taught or suggested by the prior art. *In re Royka*, 490 F.2d 981, 180 USPQ 580 (CCPA 1974).
